

**Project Title: Using Data Integration to determine music popularity, artist popularity, and top user demographics.**

**Team Members:**

Ashley Cleveland  
Addison Brown  
Jessica Jordan

**Project Description/Outline:**

This project is to explore one of the most popular music streaming platforms, Spotify. We will be extracting, transforming, and loading data around music popularity, artist popularity, and top user demographics.

**Sources of Data**

Kaggle: [Spotify Tracks DB](#)  
Spotify Api  
Spotipy Library for the Spotify Web API
